RINGKASAN

Computer Science graduate from Universitas Pamulang (GPA: 3.74/4.00) with a focus on Data Analytics. Experienced in developing end-to-end data analytics projects, including ETL pipelines, data cleaning, exploratory data analysis (EDA), data modeling (star schema), and interactive dashboard development. Proficient in Excel, SQL, Python, and Power BI, and eager to contribute as a Junior Data Analyst.

KEAHLIAN TEKNIS

- Data Analytics & Modeling: Data Cleaning & Transformation, Exploratory Data Analysis (EDA), Data Visualization, Business Intelligence, Star Schema, Statistical Reporting
- Tools & Software: Power BI (DAX, Power Query), Microsoft Excel (Pivot Table, XLOOKUP, Advanced Formulas), SQL (MySQL, SQLite, BigQuery), Python (Pandas, NumPy, Matplotlib, TensorFlow, Keras)
- Supporting Technologies: PHP, HTML, CSS, JavaScript, Figma, Canva

PENGALAMAN PROYEK

FMCG Sales Performance Dashboard | Karirnex March 2026

Excel, Python, Power BI, SQL

- Built an ETL pipeline using Excel and Python to clean over 20,000 transaction records through deduplication, type casting, and missing value handling, while utilizing SQL for data exploration and validation.
- Analyzed multi-channel sales performance (Offline, Green Marketplace, Orange Marketplace) and identified top customers using aggregation techniques, resulting in an interactive Power BI dashboard highlighting IDR 294 million in total revenue and 7,000+ orders to support customer loyalty strategies.

Indonesia Tourism Destination Analysis March 2026

Power BI, Power Query, DAX

- Designed a star schema data model from four relational tables (437 destinations, 300 users, and 10,000 reviews) and developed a custom Value Index metric using DAX to evaluate destination quality based on price and rating.
- Discovered that premium-priced destinations did not necessarily receive higher ratings, while competitively priced destinations achieved higher Value Index scores, providing insights for destination positioning strategies.

Dashboard Analitik Penjualan Toko Sembako | KarirNex February 2026

Microsoft Excel

- Developed an executive dashboard featuring four KPI scorecards using advanced Excel functions (IFS, SUMIFS, COUNTIFS, Pivot Table) to analyze six discount tiers and monthly sales performance.

Livestock Population Analysis Jawa Tengah (2019-2024) | Special Skill February 2026

Excel, Python, Power BI

- Integrated and standardized six historical datasets from the Indonesian government open data portal and performed EDA across 35+ administrative regions. Identified Broiler Chickens as the fastest-growing livestock commodity (+416 million population) and Demak Regency as the leading production area.

BengBOT – AI Customer Service Chatbot for Yamaha Motorcycle | Orbit Future Academy February – June 2024

Python, Flask, NLP (LSTM), Figma

- Designed an NLP pipeline including tokenization, lemmatization, padding, and text preprocessing, achieving 99% model accuracy.
- Collaborated within a cross-functional team by contributing to backend development and coordinating with UI/UX designers during the capstone project.

PENDIDIKAN

Bachelor of Computer Science | Universitas Pamulang

August 2021 – September 2025

- GPA: 3,74 / 4,00
- Undergraduate Thesis: *Decision Support System for Selecting Outstanding Students Using the Multi Factor Evaluation Process (MFEP) Method (Case Study: PPTQ Darussunnah Parung Bogor).*

Certified Independent Study (MSIB Batch 6) | Orbit Future Academy

February 2024 – June 2024

- Completed the AI 4 Jobs program (900 hours) covering the end-to-end AI project lifecycle, including Data Acquisition, Data Exploration, Data Modeling, Model Evaluation, and Deployment.

CERTIFICATIONS & TRAINING

- Data Analyst Bootcamp (Excel, SQL, Python, Power BI) | KarirNex, 2026
- Microsoft Excel Specialist Intensive Bootcamp | KarirNex, 2026
- Data Analyst Bootcamp | Special Skill Indonesia, 2026
- Intermediate SQL | DataCamp, 2026
- Programming Competency Certification | LSP UNPAM, 2025
- AI 4 Jobs – MSIB Kampus Merdeka Cycle 6 | PT. Orbit Ventura Indonesia, 2024

ACTIVITIES

Community Service Program (PKM) | SMP Falatehan Serpong

November 2023

- Prepared project proposals, Microsoft Excel training materials, and final reports for a community service program that introduced basic spreadsheet calculations to 15+ junior high school students.
